Technical Data Sheet – Floor Warning Tape

Our PVC marking tape, warning tape, or nowadays, social distancing tape, is made with PVC as a carrier, and rubber-based adhesive as the adhesive.
Social distancing floor tape specifically helps you mark pathways for people to form a line, and indicate where they may stand 2 meters apart from each other. Bright, bold yellow and black colors immediately caution people to be aware of their distance from others and hazard-striped tape immediately communicates where people can't stand. This floor marking tape can be customized with unique messaging and provides people with the information they need such as where to stand and which areas are quarantine areas. Also can be customized with different colors.

Technical Parameters

Description	PVC Floor Marking Tape
Item No.	PI-06
Backing	PVC
Adhesive	Rubber Based
Tack	≥10 #
Elongation	≥130%
180°Peeling	≥2.75N/25mm
Thickness	150mic~180mic
Color	black & yellow,
