Technical Data Sheet – Nano Grip Tape

- Through new nanotechnology, width, and PU gel material, our Nano Grip tape is designed to be the most reliable, sturdy, and strong tool for sticking items. It can hold up to 1 KG (2.2 LBS) on a smooth surface so you can arbitrarily paste anything, such as cell phones, keys, pens, decorations, etc.…

Our Nano Grip Tape can be used to fix carpets, furniture, paste posters, decorative paintings, photo frames and other small items which need to be placed at a long-term vertical angle.

Attention: Don't use it on your painted wall, it may destroy the surface of the wall at the time it remove. Only suggest to use it on smooth surface like glass, tile, marble and others surface which can't fall off paint.

- You can cut this transparent adhesive tape to any size and length to meet your needs! It can be stretched, bending and folded out of shape to meet your needs. If the weight of your object is heavier, you need to use more Nano Grip tape to keep them stronger. Work in a temperature range from 80 ℃ (long time) to 150℃ (short time).

Technical Parameters

Description	Nano Grip Tape
Backing	Acrylic adhesive
Tack	≥30 #
180°Peeling	≥30N/25mm
Thickness	2mm
Color	Transparent
Heat Resistant	80°C - 150°C
