Technical Data Sheet

WATER ACTIVATED PAPER TAPE

Water-activated paper tape bonds instantly to both virgin and recycled fiber surfaces. Generates an immediate destructive bond resulting in a tamper evident package. Water activated paper tape is offered in plain paper with many styles available in different sizes to meet the packing requirement. They all have one common feature - uncompromising quality.

Uses & Applications

It is mainly used to replace pressure-sensitive adhesive tape etc. Works well on recycled cartons, and non-palletized loads.

Used for extremely secure box sealing. Strong adhesive packaging.

The tape bonds to corrugated boxes to keep the contents inside safe during transit and shows evidence of any tampering or opening.

Secure Bond - our starch based adhesive aggressively bonds to corrugated cartons, even in dusty or dirty environments.

All-Weather Use - not affected by extreme hot or cold temperature. Protection - a carton sealed with water-activated tape can't be opened without leaving a broken seal.

Product TDS

Physical Properties			Metric	Test Method	
Color		Natural			
Water-Activated Adhesive		Starch Adhesive			
Total Thickness			0.14 mm	ASTM D-3652	GB/T7125
Tensile Strength	MD		100 N/25mm	ASTM D-3759	GB/T7753
	CD		50 N/25mm	ASTM D-3759	GB/T7753
Backing		70 g/㎡ Kraft Paper
