AQD 19 Machine

The AQD 19 is a heavy duty strapping tool. It offers a strapping tension of up to 3000N and hence is used mostly for heavy industrial flat packaging. Being lightweight, it can be used by a single person thereby saving costs on manpower needs. AQD-19 Pneumatic tool is applicable to neutral packaging and widely used in the export enterprises of Rubber, Tea, Coconut, Iron, Tile, Glass, textile, household electric appliance, foodstuff and daily merchandise. It can be used to tighten the PET Strapping/ PP Strapping with minimum effort and seals by itself with friction welding.

AQD-19 Hand-held Pneumatic Strapping Tools for 13mm -19mm Polypropylene strapping & PET strapping

Product description

Features:

1. Easy to use, light weight machine, pneumatic power design.
2. No fasteners, using friction heat welding, the interface appearance and reliable.
3. The high degree of automation, tight, controlled fusion crust strong.
4. Large tightening force, the special structure design, easy steel, aluminum, heavy-duty packaging tighten and packaging.
5. Machine durability, all of the body and components are made of high strength alloy materials, high-reliability design, advanced manufacturing technology.

Technical Data

Model: AQD-19
Band width: 13-19mm
Band thickness: 0.5-1.5mm
Suitable band: PP &PET strapping
The form of sealing: Frictional heat welding
Max tension: 3000N
Pressure: 0.5-0.7MPa
Weight: 3.8kg
Machine dimension: 280*160*180mm

PP/PET strapping Tape tools

MANUAL TENSIONER MACHINE

Product Details

Model NO	Strap width	Strap thickness
B330 Red	9-19mm	0.4-1.0mm

STRAPPING SEALER MACHINE

Manual PP/PET strapping sealer

C308

C401

Product Details

PP/PET strapping sealer -Short arm

Model NO	Strap width	Arm length	Strap thickness
C308	16mm	35mm	0.6mm-0.8mm

PP/PET strapping sealer -long arm

Model No	Strap width	Arm length	Strap thickness
C401	16mm	50mm	0.6mm-0.8mm
